- 1. Work Incentives Planning and Assistance Program -- 0960-0629.** As part of SSA's strategy to assist Social Security Disability Insurance (SSDI) beneficiaries and Supplemental Security Income (SSI) recipients who wish to return to work and achieve self-sufficiency, SSA established the Work Incentives Planning and Assistance (WIPA) program. This community-based, work incentive, planning and assistance project collects identifying claimant information via project sites and community work incentives coordinators (CWIC). SSA uses this information to ensure proper management of the project, with particular emphasis on

administration, budgeting, and training. In addition, project sites and CWICs collect data from SSDI beneficiaries and SSI recipients on background employment, training, benefits, and work incentives. SSA is interested in identifying SSDI beneficiary and SSI recipient outcomes under the WIPA program to determine the extent to which beneficiaries with disabilities and SSI recipients achieve their employment, financial, and health-care goals. SSA will also use the data in its analysis and future planning for SSDI and SSI programs. Respondents are SSDI beneficiaries, SSI recipients, community project sites, and employment advisors.

Type of Request: Revision of an OMB-approved information collection.

SSA must collect information at each step of the administrative process to adjudicate claims fairly and efficiently. SSA collects this information to establish a claimant's right to

administrative review and the severity of the claimant's alleged impairments. SSA uses the information to determine entitlement or continuing eligibility to disability insurance benefits or SSI payments and to enable appeals of these determinations. In addition, SSA collects information on Forms HA-85 and HA-86 to allow claimants to withdraw a hearing request or an Appeals Council review request. The respondents are applicants for title II disability insurance benefits or title XVI SSI.
